

Minute of short-term joint staff training event, ICT prevents ESL in Romania, Brăila, 17th-21st October 2018

Aim of this joint training was to explore, compare, and learn about ICT innovative pedagogies for addressing for reducing ESL.

This training was aimed at exchanging knowledge, problematizing existing practices and formulating new pedagogies. It emphasized dialogue and collaboration between participants, as opposed to the transference of preformulated skills and knowledge. In terms of methodology, emphasis was given on workshops, seminars and roundtable discussions. Regarding event's relevance and integration with normal activities of involved schools, it contributed to mainstreaming teaching and learning of ICT across curricula and practices. This training enriched and organized existing activities within a code of practice that purposely addresses questions of ICT to motivate pupils. In addition to this code of practice, workshops produced lesson plans, lesson templates and teaching material.

Day 1

Teachers were trained about digital skills and how to use them in order to motivate students. They learnt and developed digital skills: using cloud, managing multi-tasks, recording-editing video, creating online tests with kahoot, WebQuests, Podcasting and screencasting, creating blogs, wikis, Weebly. Teachers participated at welcoming artistic schedule at school organized by pupils-traditional dances and songs.

Teachers were trained by Catalina Rotaru during ICT course, teachers learnt about using Kahoot, learning apps, QR-CODE, Edmodo, Piccollage.

Teachers worked with pupils from Romania during:

- English lesson "Following William Shakespeare"- using ICT- using QR code and Kahoot.

-Biology lesson-" Nervous System"- using, applying QR code, quizziz, kahoot, socrative and on Edmodo platform.

-Physics lesson-" Measure-using QR code, learning apps, Kahoot

- English lesson using ICT- using videos in teaching, Kahoot, quizziz, QR code, Facebook, youtube

There was a meeting-workshop with representatives of Teaching-Training Staff House- presentation of its courses for teachers in order to help students in social risk, ESL.

Day 2

Teachers were trained working with Romanian students on: use of online interactive tools: Vuvox, Checkthis, Thinglink, video converters, pdf online, Grockit answers, Edmodo during:

- Lesson-using ICT at primary education- implementing Kahoot, quizziz

-Lesson Counseling-using ICT -implementing QR-code, Kahoot, quizziz, the tree method, treasure hunt

Teachers were trained by ICT teacher on using Scratch in lessons for making them more attractive, they created animations.

There was also Coordinators' meeting, there were discussed some organization problems:

-Portugal and Netherlands dropped the project so we rescheduled the activities and responsibilities

-we fixed the dates for mobility in Greece 7-11 March 2019 and Lithuania in October.

There was a workshop at the University of Management "Constantin Brancoveanu", Braila-how do we encourage pupils to continue their studies?

Day 3

Workshop on interactive learning methods: learning by doing, creating digital exhibitions with museums in schools, introducing transdisciplinary moments in a lesson, study methods with smart phones and tablets at the House of Parliament and the Museum of Senses.

There was a feedback questionnaire for evaluation of LTT.
